### **DETAILED ACTION**

Applicants response filed 10/16/2008 is acknowledged.

Claim 1, 2, 4-9, 12-21 are pending.

### ***Election/Restrictions***

Group I, claims 1-9 drawn to compounds of the core structure

was elected without traverse (papers filed 06/06/2008), and was prosecuted to the extent that the claims read on the elected subject matter. Currently amended claims are drawn to compounds of the formula (1) with variables such as X not relevant to prosecution. Further, the election and current amendments render claims such as 2 and 4 redundant. In reply to this office action, it is suggested that applicant address these issues. Cancellation of withdrawn claims is also suggested since the election was made without traverse.

### ***Claim Rejections - 35 USC § 112***

Amendments to claims overcome the previously presented rejections under 35 USC § 112 first and second paragraph.

### ***Claim Rejections - 35 USC § 102***

Amendments to claims and persuasive arguments overcome the previously presented rejections under 35 USC § 102.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Previously presented rejection of claims 1, 5-9 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims of copending Application No. 10/576731, 10/561051, 10/561050, 10/561052, 10/518725 is maintained for reasons of record.

Applicants will address this issue when the instant claims are in condition for allowance.

***Allowable Subject Matter***

Claims 1, 5-9 would be allowable if rewritten to overcome the double patenting rejection(s) and upon amendments to claims as suggested under Election/Restrictions in this office action.
